### MARC Jr. - Section Planning Worksheet

<table>
<thead>
<tr>
<th>Section Title: (e.g. STUDENT RESULTS)</th>
</tr>
</thead>
</table>

1. Summarize the program or activity

2. Program or activity title (keywords or phrases only from above):

3. What data/information are available or could be available about relating to the program or activity (historical as well as pre and post-intervention)? Get current data for comparison with historical data (if available)

   Who has or where is the data?

4. Do the data measure student results or outcomes? Yes ___ No ___

   If no – 1. Are there data that would more directly relate to student results or outcomes? Who might have it?
   2. Are there other data that could be collected (surveys, testing, grades reports, referrals, logs, etc)

5. Using the data from above, describe the results of the project/activity in terms of student achievement

6. Sketch a graph of the results (Pie chart, bar chart, or line graph)
